# STILL BESIEGED.

State Department at Washington  
Has Received a Message  
From Mr. Conger.

## THEIR SITUATION WAS PRECARIOUS

The Imperial Troops Were Firing Up  
on Them Daily—Scarce of Ammu-  
nition and Provisions.

The Chinese Government Was Insist-  
ing Upon the Ministers Leaving  
Peking Which, Conner Thinks,  
Would Be Certain Death.

Washington, Aug. 8.—The following cablegram from Minister Conger was received by the state department:

"Ts-nan-Yamen, Aug. 7.  
To Secretary of State:

"Still besieged. Situation more pre-  
carious. Chinese government insist-  
ing on our leaving Peking which  
would be certain death. Rife fire  
upon us daily by imperial troops.  
Have abundant courage but little am-  
munition or provisions. Two pro-  
gressive Yamen ministers beseiged.  
All connected with the legation of  
the United States well at the present  
moment."

(Signed) "CONGER."

This cablegram from Minister Conger is the second one received direct from him since June 12. It is first which has come direct from the minister since the above date, the other having been received through the intermediary of the Chinese minister here, Mr. Wu. This telegram shows that the situation in the Chinese capital is still of a very serious character, that the ministers are still in danger from the Chinese troops and that their supplies of ammunition and provisions have been reduced to a very considerable extent. So important were the statements contained in the dispatch that a conference was held by wire between several of the officials here and the president at Canton, lasting for several hours. At its conclusion the cablegram from Mr. Conger was made public.

The cablegram came in the official cipher of the department. It is undated like his previous cablegram, but it is the same cipher used by him, given his reference to the heading of two members of the Tsang Li Yamen and to the insistence of the Chinese government of the removal of the ministers from Peking, state department officials say it may be dated about July 20, perhaps not later than August 2. It is checked by the telegraph company as having been put on the wires at Ts-nan, a large city about 80 miles southeast of Peking, on Aug. 7.

Those who were at the white house in conference with the president included Acting Secretary Ade, of the state department, Secretary Root and Adj't. Gen. Corbin. Capt. Michael, the chief of engineers of the state department, though whose hands the cablegrams passed, was also present part of the time. What the result of the conference was the officials declined to say. That it will stimulate the energies of the government to its utmost efforts to secure the final advance movement towards Peking is certain, for Mr. Conger's message makes it clear that for the ministers to leave Peking would result in their death.

The officials had been led to believe from the more recent dispatches which had purported to emanate from Chinese sources as well as from imperial edicts that the condition of the legations was much improved in Peking would necessitate their return to the capital earlier.

Secretary Root stated that so far as he was aware there would be no change in the president's intention to return to Washington on the 1st instant, making no reply to a question as to whether the whole development in Peking would necessitate his return to the capital earlier.

The word "Yamen" following the name of the city Ts-nan, at which the cablegram from Minister Conger was sent, is the Chinese word used here, probably refers to the official building or residence from which it was transmitted, or at which it was received by courier from Peking.

## USING DYNAMITE AGAIN.

A Car on the St. Louis Transit Co.'s Line Blown Up in the Daytime.

St. Louis, Aug. 8.—After a pause of five days dynamiters have com-  
menced again to place explosives on  
the tracks of the St. Louis Transit  
Co., and a car was blown up in the  
morning. It is the first case of  
daylight dynamiting since the strike  
commenced.

The explosion was terrific. All the windows in the car were shattered and a whole twice the size of a bushel basket was blown through the floor. There were no passengers on the car and neither the conductor or motor-man was injured. At night women along the line were warned not to sit on the cars as they would be blown up.

## IN INDIANAPOLIS.

Bryan and Stevenson Ready to Be  
Notified of Their Nomination  
By the Democrats.

# THEY MUST FIGHT

The International Relief Force  
Will Not Be Allowed to Enter  
Peking Peaceably.

## LI HUNG CHANG HAS SO DECIDED

He Reiterated His Previous Statement  
That the Ministers Left Peking  
For Tien-Tsin on Aug. 2.

A Message From the Belgian Minis-  
ter at Peking Dated Aug. 2 Says  
That the Ministers Are  
Still There.

London, Aug. 8.—In case the  
troops advance the Chinese must  
fight. The suggestion that the allies  
should be allowed to enter Peking  
in order to escort the ministers to  
Tien-Tsin is absolutely impossible.

This is the dictum of Li Hung  
Chang. It was issued yesterday  
evening to Mr. William Pritchard  
and Mr. John M. Morgan, agents  
of the British and American  
ministers at Peking.
